

Adviser to female scientists on the virtues of beer, and the need of maps for world travel

As a noted climatologist, he visited Arto Salomaa in the Arctic circle and gave a brilliant counter-example to the Global-Warming hypothesis

He settled the long outstanding
it-is-warmer-in-Haifa conjecture,
coauthored by the late Michael Yoeli

Authored an optimal gradient selection algorithm for hill-climbing on complex non-convex manifolds, coauthored by Maria Brzozowski
