ABOUT UWATERLOO HFES CHAPTER

The University of Waterloo HFES is a student chapter of the Human Factors and Ergonomics Society (HFES). HFES was founded in 1981 and has now grown to 24 members (18 students and 6 faculty). Our chapter strives to inform our members and the community about the relevance and importance of human factors in a variety of domains, current research on our campus, and potential career opportunities.

Take this chance to share your research with colleagues and industry

The University of Waterloo Human Factors and Ergonomics Society is proud to be hosting the Inter-University Workshop for its 20th anniversary!

This annual student conference is a unique opportunity for engaging research and industry community in a day of sharing, communication, top quality keynote speeches of the field, career exploration, and establishing meaningful professional connections.

Who can apply?
We are inviting graduate and senior undergraduate students who are conducting research in human factors, ergonomics, user experience or work from any field involving technology, machines, design and systems.

Research
We are accepting abstracts from completed projects and works in progress.

Abstract format
All abstracts must be no longer than 300 words describing their research.

Presentation format
We are accepting work in the form of either an oral presentation or a poster.

Abstract submission deadline
EXTENDED: OCTOBER 15th!

SUBMIT YOUR ABSTRACT!
Fill out our abstract submission form at www.iuw19.weebly.com
Networking opportunities for student researchers and industry members

The Human Factors and Ergonomics Society Chapter at the University of Waterloo is pleased to host the 20th Annual Human Factors Engineering Inter-University Workshop (IUW) on November 16th, 2019. The IUW is a student-run workshop that attracts human factors researchers from institutions including the University of Waterloo, University of Toronto, and SUNY Buffalo, as well as members of the human factors and ergonomics community at large. This workshop is a full day event filled with networking opportunities for student researchers and members from industry to share their ideas and latest work in human factors and ergonomics.

CALL FOR ABSTRACTS!

We are also receiving abstracts submission until October 15th! Visit our website for more information!

Summary of Events

Keynote Addresses
Two keynote speakers will talk about their experiences working in human factors engineering, spanning academia and industry.

Podium Presentations & Poster Session
Students will talk about their latest human factors research, in fields from healthcare and transportation, to military and process control applications.

Awards Ceremony
The top podium and poster presentations, as voted by attendees, will receive a prize.

Networking Dinner
We will hold a dinner reception to close the event.

For more information and registration, visit our website at www.iuw19.weebly.com

IUW is hosted among the University of Toronto, University of Waterloo, and SUNY Buffalo.
