

To obtain complete list of sections we need to deal with:

```
odyssey_prod=> select term_id, class_id, group_code,
department_code, course_subject || ' ' || course_catalog
as course, section_component || ' ' || section_code as
section, section_title, section_status, admin_id from
cls_section natural join cls_offering natural join
cls_course natural left join
teaching_admin_class_indirect where (term_id, group_code,
section_session, section_type, career_code) = ('1129',
'MAT', '1', 'E', 'UG') and section_status <> 'X' and
course_subject <> 'SEQ' and campus_id <> 'WLU';
```

term_id	class_id	group_code	department_code	course	section	section_title	section_status	admin_id
1129	5314	MAT	STAT	ACTSC	STAT			
230	LEC 003	Probability						
A		20604						
1129	5288	MAT	CS		CS			
341	LEC 001	Algorithms						
A		20806						
[...]								

Most of the remaining courses without admin units are 4xx/6xx combined undergrad/grad courses.
