Add new special sitting on - at : Add Sitting!

Normally seat and sequence number assignment take place automatically the Friday before the week (Monday-Sunday) of the midterm examination. If you need to have the administrative documents (signature lists, folders, labels) available earlier, or if you are setting up the midterm late and have missed the automatic assignment run, you may click here to trigger sequence number assignment manually: [Finish Setup!](#)

Caution: assigning sequence numbers freezes the seat layout. No further changes of any kind can be made to the set of candidates selected for the examination, the sittings, rooms, or times, or where or when candidates will write. In particular the automatic moving of candidates to AccessAbility sittings, when needed, will not happen. Course staff will be responsible for ensuring these students are provided with examination papers.
