COSC 1030 – Assignment 2: Sparse Arrays
Due: Wednesday, February 12, 1997 at 10:30 a.m.

A professional report is expected with subparts for each task and item to be handed in, with appropriate documentation – not too much, not too little. We are looking for "the steak not the sizzle". Use reasonable sized fonts and whitespace. Do not pack to meet the page limit. Programs are suitably structured in content and style, commented and tested.

Teams of two are permitted. A team submits a joint report. Each author receives the same grade.

REPORT LIMIT 30 logical pages, includes everything you submit. Reports that are too long receive an F.
