COSC 1030 – Assignment 2: Sparse Matrices
Due: Wednesday, February 11, 1998 at 10:30 a.m.

A professional report is expected with subparts for each task and item to be handed in, with appropriate documentation – not too much, not too little. We are looking for "the steak not the sizzle". Use reasonable sized fonts and whitespace. Do not pack to meet the page limit. Programs are suitably structured in content and style, commented and tested.

Teams of two are permitted. A team submits a joint report. Each author receives the same grade.

REPORT LIMIT 18 logical pages, includes everything you submit, except the cover page. Reports that are too long receive an F.
