

David R. Cheriton School of Computer Science

Undergraduate Research Assistantships (URAs)

What is a URA?

- An opportunity for students to assist professors with research
- Possible topics include:
 - Programming
 - Algorithm design
 - Literature search
 - Generation of examples
 - Search for counter-examples

Pay: \$600.00 per term (approximately six hours per week for ten weeks)

Who is eligible?

- Completed year 2 in Faculty of Mathematics with at least an 80% average
- Preference given to Computer Science majors

A student can only do one URA per term.
