

Hello, and welcome!

I am Collin Roberts, the instructor of CS 360 during the Winter 2022 term.

Of the CS courses I have taught so far, CS 360 is my favourite course to teach. I enjoy the course material very much, and I hope that you will enjoy it too. This will be my first time teaching the course remotely, to start.

I intend to use our scheduled lecture times to live stream my lectures, at the start of the term. When it's possible to do so safely, I will switch back to in-person lectures. Similarly I will run the assessments online if needed, and switch them in-person when it is possible to do so.

Please reach out to me if there is any way I can help to improve your experience in the course. My contact information is posted on the course websites.

I look forward to going through CS 360 with you!

Bye for now.
