

NEW PATHS TO EL DORADO

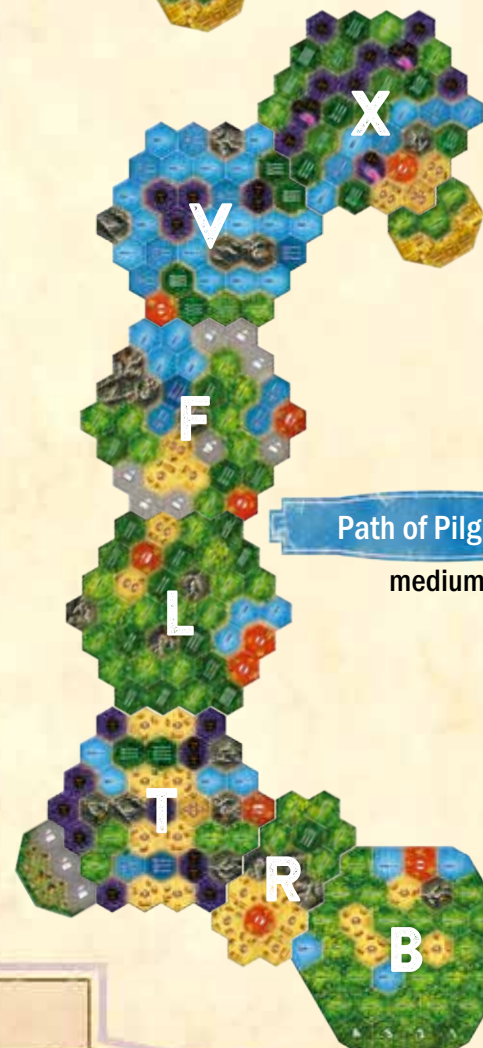

This page shows additional suggested routes for your games. During setup, place a random blockade on each connection between two terrain tiles.

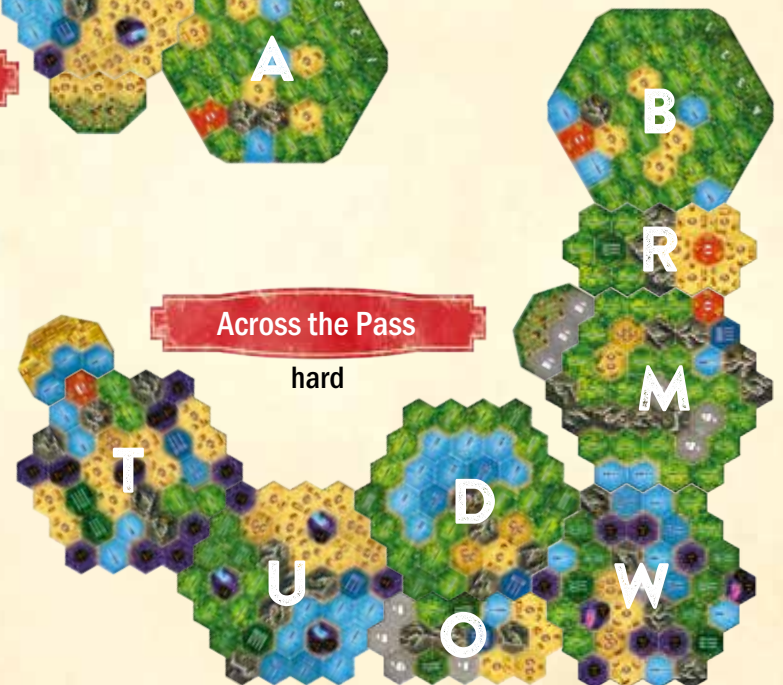

Demon Gorge

Tips and tricks for creating your own routes with the expansion

- Use all of the 3 new terrain tiles.
- Always attach the game tavern to the second terrain tile.
- Arrange the new terrain tiles in a way that makes the tunnels into attractive shortcuts.
- Experiment with wider routes, such as the 'Blind Spot.'
- If you aren't sure where to put a blockade, don't place it.
