

**CS886 - AI and Philosophy
Fall 2017**

Prof. Robin Cohen

Time and location: (expected: Monday mornings 9am-11am; DC2568)

Enrol in the course via permission number. Send email to rcohen AT uwaterloo DOT ca to ask for one (after Jul 20). This is being done due to the small size of class. Do not be discouraged if you are truly interested in taking the course.

Around Jul 25, approval for entry into the course will begin. Actual permission numbers may not be available to use on Quest immediately, but will eventually be assigned. Once you have been approved for entry into the course, you will be guaranteed to have a seat. While the class may appear to have space for new students on the UW Schedule page, this is deceptive, as the numbers will not be registered there until the permission numbers are actually issued and used.
