II-8. Consider the following Alloy model: [8]

```
sig Tree { root : Node }
sig Node {
        left : lone Node,
        right : lone Node,
        val : one Int,
}
```

Consider the example instance of this
model shown in the figure.
Evaluate each expression

| Expression | Value | Expression | Value |
|---|---|---|---|
| left | | *(left+right) | |
| right | | | |
| root | | | |
| val | | | |
| Tree.root | | Tree.root.*(left+right) | |
| left+right | | | |
